Excel with 87% through CBSE board

Samrat Public Sr. Sec. School, Rajasthan (Ajmer)— 12th Board

April 2019 - July 2020

PROJECTS

1. Safe Travel

This project uses **C language and Data Structures**. We know that there are many different websites in which we can manage our tour plans according to our preferences but there are not that easy things. So I tried to make software which is easy to use in that we can book tickets with respect to the given plans, we can cancel the plan too, search according to user amount preference, and for the admin they can add a new plan or delete the plan present in the brochure. This makes the work of both customer and admin easy

2. Student Record Management

This project uses **C++ language**. Manages and facilitates in managing the new entry, sorting, finding the record, deleting the record. .

3. Recognition

Currently working on it. This project uses **Python language**. This project will help in recognizing the person through faces and gives detail about the person basically uses for safety purposes.
